

Julia Odenweg

Combat Medic in the Penitents of Rausch squad, 386th Regiment

Sometimes, things get wrong. For the Penitents, this happens more often than not. In such occasions, Julia intervenes. She moves fast to assess the victim's health. If they can be patched up, Julia will do what she can. Not because she cares about any life, but because all of them are assets to be used in the great fight. Victory is all that matters. Field dressings limit her ability to heal people though. If she's got no hope of getting the unfortunate back to a combat ready status, she will promptly end their suffering.
